### **Gender Questioning Children:**

At International Projects (IP)/Europa School , we are dedicated to fostering a safe, inclusive, and supportive environment for all students, including those questioning their gender. This policy aligns with the latest UK government guidance, including the "Gender Questioning Children" non-statutory guidance and the Cass Review recommendations.

### **Objectives:**

Ensure a safe and supportive environment for gender questioning students.

Provide specific support for transgender and non-binary students.

Equip staff with the knowledge and skills to support these students effectively.

Ensure parents and guardians feel that their gender questioning children are supported and cared for in a sensitive way.

### **Respect and Recognition:**

Students will be addressed by their chosen names and pronouns, ensuring consistent respect across all settings.

We will reflect those chosen names and gender identities in documentation but will also issue certificates etc in the students biological sex and birth name as on their birth certificate in case it is also required.

We may need to discuss a child's request to socially transition with their parents or guardians and consider their views, except in exceptional circumstances where informing the parents could pose a significant risk to the child (Education Hub).

### **Facilities and Accommodation:**

Where possible we provide gender-neutral facilities, such as toilets and changing areas. In some cases this is not practical but supervisors will endeavour to find a solution that is practical and sensitive.

learn more than a language

Students will be housed in accommodation according to their biological sex, we will always endeavour to house people based on their sharing preferences and where there are issues relating to gender we will try and take that into account and provide as much information as possible regarding availability of private ensuite bathrooms etc in order that the student can make an informed decision prior to booking.
